INTERNAL QUALITY ASSURANCE CELL(IQAC)

Student Satisfaction Survey on

Teaching-Learning and Evaluation Process

2022-23

As a part of improving quality in the Teaching-Learning and Evaluation process of **PACE Institute of Technology and Sciences**, **Internal Quality Assurance Cell (IQAC)** conducted an online survey for the student's named **Student Satisfactory Survey-2022-2023**.

The Survey consists of 21 Questions. Out of these, 20 questions are closed-ended questions, where students need to select the answer from the predefined options on a scale of zero to four, with the most positive response rated as four and the most negative response rated as zero. The responses to these questions were represented on the pie Chart.

The Satisfactory was calculated as

$$\text{Satisfactory Index} = \frac{\sum G_i S_i}{4} \times 100$$

Where, i is Grade scale i.e...0 to 4

G_i is the i^{th} grade point

S_i is the percentage of i^{th} grade-selected students

The 21st question is an open ended question to elicit observations for improvement, allowing students to give suggestions and criticism in their own words.

The observations from the twenty closed-ended and the last open-ended questions were analyzed and reported. A plan of action for the next academic year was drawn from the analysis. And also, the outcomes of the actions implemented from the Student Satisfactory Survey 2022-23 (Last Academic Year Student Satisfactory Survey) were reported.
